IT DOESN'T JUST PUSH THE LIMITS. IT ABSORBS THEM.

Introducing META Shock. A high activity foot with a revolutionary unibody design plus an integrated shock module that provides adaptive shock absorption, responding appropriately to any activity.

META™ Shock
by WillowWood

PDAC APPROVED

KEY FEATURES:

- Industry-first boltless, unibody carbon fiber design
- Provides class-leading levels of deflection from the lowest build height in its class
- Shock module responds appropriately to every step

Newport® Hip Orthoses

Orthomerica's Newport Hip Management Systems are designed and engineered to provide the most comfortable hip orthosis for your patients. Innovative new options increase function and control.

Key indications

- Post-operative hip revision patients
- Primary arthroplasty patients at risk to dislocate
- Inoperable hip patients at risk
- Patients needing stability after dislocation

Newport® 3 HIP SYSTEM

The **Newport 3 Hip Orthosis** has been the industry standard for over twenty years. Innovations like the patented clamping disks, allowing precise contouring of the pelvic section and the Universal Virtual Joint, which provides unprecedented strength in a small component, have made the Newport Hip Orthosis the most popular choice for physicians, orthotists, and patients, worldwide.

Newport® 4 HIP SYSTEM

The **Newport 4 Hip Orthoses** is the next generation of post-operative hip management systems—designed and engineered to provide the most comfortable hip orthosis for your patients. Innovative new options increase function and control including adjustable clamping disk design.
